Christian Göran

JUNIOR FULL STACK SOFTWARE DEVELOPER

Email: christian.goran@gmail.com

LinkedIn - **GitHub** - **Website**

PERSONAL PROFILE

As a junior Fullstack software developer, I am currently enrolled in a Fullstack Software Developer diploma program and actively pursuing entry into the tech industry. My diverse background, including years as a commercial pilot and experience in creative production at a communications agency, allows me to approach coding challenges with creativity and a keen eye for detail. I am curious by nature with a passion for continuous learning and growth, aiming to contribute my skills and drive to create innovative solutions within a collaborative team environment. From my time as a pilot I bring a non-prestige approach to finding the most efficient and creative way of solving a set of problems as a team.

Let's play!

KEY SKILLS

- **Languages:** HTML, CSS, JavaScript, Python.
- **Databases:** MySQL, MongoDB, PostgreSQL.
- **Libraries:** jQuery
- **Version Control:** Heroku, GitHub, Git

ADDITIONAL INFORMATION

- Languages: Fluent Swedish/ Fluent English/ Intermediate Spanish/ Intermediate German
- Running my resort Dome Lombok in Indonesia, currently has 20 employees.

INTERESTS

- Graphic Design - Doing some side hustle as a graphic designer - I enjoy creating and designing.
- I love spending time with my twin daughters, in forests or on the beach looking for nice rocks, hoping to find dinosaur fossils one day.
- Generally I am a tech geek that follows what is happening in the industry!
- Exercising a lot. Home callisthenics and running mostly.
